

Bidston & Gillmoss

**RECYCLING
Discovery
CENTRES**

Discover what happens to your recycling

The Recycling Discovery Centres at Bidston and Gillmoss

offer the opportunity to see recycling in action and to find out what happens to your waste. Our free programmes and visits are open to all schools, colleges and community groups.

Bin Bin

Meet our resident elephant at Gillmoss, he is made entirely from recycled materials!

1 Discover

The journey of your household waste and recycling.

2 Learn

How to reduce, reuse and recycle!

3 Interact

With a wide range of activities and get hands on by testing your knowledge in our quizzes and games.

4 Observe

The recovery process of recycling via our viewing platform and live CCTV.

5 Be inspired

To change your behaviour and make a pledge on our pledge tree - what will you do?

working in partnership

www.veolia.co.uk/merseyside-and-halton

“A visit to the Recycling Discovery Centre helped us to make our waste reduction pledge and action plan, as a result we have now achieved our green flag status”

“An excellent start to a new topic, the visit provided inspiration for our students to begin new Learning Challenges with!”

Further Education courses that will benefit from a visit:

- BTEC Environment and Countryside
- Level 2 Environmental Conservation
- Environmental Science
- Developing Environmental Awareness
- Architecture

Learning Outside the Classroom

We have been accredited as a Learning Outside the Classroom provider for the activities we provide based on learning through play.

National curriculum

Our programmes cover a range of the National Curriculum and Key Stage Themes:

- **Maths** – Problem solving
- **Geography** – Global Environmental Issues, Sustainable Development
- **English** – Presentations and interaction
- **Science** – Waste and Recycling Processes, Health and Safety, Classifying Materials.

Eco-Schools

Our programmes can be tailored to help you achieve the bronze, silver or green flag status.
